

Sara Korman

UX/UI Designer

As a UX Designer with a Speech–Language Pathology background, I blend empathetic communication with data-driven design to craft accessible, user-centered digital experiences. My dual expertise enables me to address both business objectives and diverse user needs by simplifying complex challenges and driving inclusive solutions.

EXPERIENCE

User Experience Design Contractor

January 2024 - Present

Partnered with multiple clients including KnowNative, Elli's Desserts, Addictive Ads and Qoria to solve digital challenges. These collaborations focused on revamping user interfaces, streamlining workflows, and establishing design standards that drive engagement and efficiency.

User Experience Design Intern

March 2024 - July 2024

Worked at Calstart, a transportation industry organization, to bridge the gap between research and practical implementation, focusing on improving how users' access and utilize research findings.

Speech Language Pathologist

November 2020 - August 2023

Provided specialized speech and language services at GUG Charter School and Yeshivat Ohr Haiim, focusing on individualized communication therapy for diverse populations.

SKILLS

Accessibility	Presentations
User Empathy	Information Architecture
Prototyping	Active Listening
User Research	Creative Problem Solving
Wireframing	User Flows
